**WE ARE
WINNERS**

We Are Winners!!

We're nearing the end of our summer "down under" just in time to return to a beautiful Rocky Mountain spring. What a gift to live this lifestyle made possible by our Life Force business. Time to say goodbye to friends we've met in the last few months including this cute little baby Koala.

Building Your Business

Each edition contains an interview question regarding building your Life Force business. Today's question is: **What do you say to those people who are looking for a quick path to richness in this business? Your path actually sounds pretty quick!** Let's hear from Christa first.

Christa: Building a Life Force business is like building any other business. You have to work at it. You have to put your time, energy and resources into making it happen. It doesn't happen on its own. It takes a lot of work, a lot of commitment and a lot of persistence. But the rewards are SO worth it!

Interviewer: I know in multilevel/network marketing, there are a lot of people who are looking for a quick fix. It's like oh wow, I can just get rich fast. And they don't put the effort in. Again, it goes back to that whole idea of persistence, right?

Christa: We live in a world where people have been educated to want something yesterday. It's like I'm in pain, I want to be fixed; I want to be fixed right now! I don't want to do the work to get myself healthy so it won't happen again. It's the same thing with earning money. Everybody wants more money. Go out and talk to anybody on the street. I don't think you'll find one person who wouldn't want more money. But how many people are willing to do what it takes to get it? Very few. And these few are the people we are looking for. This is who we want to work with.

Interviewer: Speaking of which, how many hours would you say you spend at this business per week in general?

Christa: It differs. When we first started we were spending a lot more time than we do now. We worked the business full-time, sometimes spending 15 to 16 hours a day working, really working hard. And right now I probably do a couple of hours a day if that.

The same question was put to Michael Jude. Here are his thoughts on the subject:

Michael Jude: You've got to work real hard, real fast if you want to get a quick way. If somebody wants to make \$5-10,000 a month in their first year, they're going to need to put everything else on hold. They're going to need to apply themselves totally. They'll need to grab this thing by the teeth and then shake it until they get it and not let go.

Interviewer: And in a way it really is kind of quick as long as you work hard. I mean, Christa was telling me that you just started this in 1998 and you developed this entire lifestyle with your homes all over the world and all the riches in many respects that you have in just five years, right?

Michael Jude: That's right. And people can have it even faster than that. It didn't take us five years to get here. It took us three years really. We've had this lifestyle for a couple of years now. What we did when we got in was we put our lives on hold and organized our lives around this. We did that for a year or two and then saw success and then it just keeps building. The thing people need to do is to make this the organizing element of their lives if they want quick success.

Interviewer: So everything has to center around this?

Michael Jude: If you want quick success, yes. Otherwise you can have it be a secondary thing, but it'll just take longer.

Product Testimonial

In this edition we'll feature Michael Jude and Christa's personal experiences with Taheebo. First let's hear from Christa:

Taheebo was one of the early products that I used. I started using it because I was going into oral surgery and I was talking to Wayne Hillman and happened to mention that I was having this surgery. He asked me if I was using Taheebo. Another name for Taheebo is Pau d'arco and I had used Pau d'arco in different ways for a number of years and it had never had any noticeable effect on me. Despite this I was willing to give Taheebo a go. So I used it once before I went into surgery and then when I came out I decided that I would give it a really good go. So I didn't use any of the pain killers, anti-inflammatories or antibiotics they gave me. It was a pretty big surgery and I had a mouthful of stitches. I came home, took some more Taheebo and went to bed. When I woke up the next morning I had no pain, swelling or inflammation—nothing. I continued to use the Taheebo every day for about two weeks. When I went back to get my stitches out the doctor who had done the surgery was pretty astounded. He asked what I'd done because he'd never seen anyone heal like that.

As far as how often I use Taheebo on a normal basis, it depends on what's going on. I use it when I feel like I need it. Currently I'm using it because I have a lot of pain from my car accidents and it's a wonderful anti-inflammatory and a natural pain killer. So it's great for me to use on a daily basis at the moment because it really makes a difference in terms of the pain level in my body. You can also use it to boost the immune system which it does beautifully, for instance when you feel like you're getting sick or have been around someone who is sick.

Now let's hear from Michael Jude about his Taheebo experience: I love Taheebo because if I have a cut or a scrape and I apply Taheebo directly to it, it heals over in a remarkably fast time period. It also seems to help

with pain and bleeding. My favorite use of Taheebo is if I'm starting to get a sore throat, I gargle with it and the sore throat goes away within an hour or two. I just wash it around in my mouth and swallow it. It's also a great overall immune booster, so I use it on a regular basis. Most of the time I don't take it every day, rather on a periodic basis when needed.

For this newsletter we feature David McLaughlin, a one star diamond with LFI, who has been doing the business full-time for just over two years. From David: "It's been really fun, challenging and rewarding to work this business and help so many people. Gabrielle and I were able to travel throughout New Zealand and Australia for four months last winter and made so many great friends there. We now have business there as well as in the US. I feel fortunate to work with an integrity-filled company and team of incredible people who are making a positive difference on this planet—it's a true gift!" Here are David and his partner Gabrielle.
